INTERNSHIP PRESENTATION

Web Development Internship at Infiniti Tech Solution, Noida

STUDENT NAME	Tanwi Singh
EROLL NUMBER	CS-23411509
PROGRAM & SEMESTER	B.Tech CSE (AI/ML), Semester 7 Batch 2023–27
ORGANIZATION	Infiniti Tech Solution, Noida

Internship Duration: 01 July 2026 - 14 August 2026

Introduction & Organization Profile

ABOUT THE INTERNSHIP

Undertaken at Infiniti Tech Solution, Noida, as part of the B.Tech CSE (AI/ML) curriculum at IILM University, Greater Noida.

45 days, from 1 July 2026 to 14 August 2026, under the guidance of Mr. Durgesh Nagvanshi, Web Developer.

Aim: gain practical, industry-level exposure to web development by contributing to the design and development of an admin portal and related website design tasks.

ORGANIZATION PROFILE

Infiniti Tech Solution, Noida

A Noida-based IT services company established in 2012, delivering technology-driven solutions across web & mobile app development, digital marketing (SEO, PPC, social), and managed IT support for startups, SMEs, and larger enterprises.

- Web & Mobile App Development
- Digital Marketing (SEO/PPC/Social)
- Managed IT Support
- UI/UX & Admin Portal Solutions

Problem Statement & Objectives

Problem: The organization helped me develop a properly structured, responsive frontend for an internal admin portal (authentication, dashboard, CMS), and structured UI/responsiveness review- informal observation suggested layout inconsistencies across screen sizes.

PROJECT OBJECTIVES

- 1 Design and independently develop the complete admin-portal frontend - auth, dashboard, CMS.
- 2 Ensure a clean, consistent, responsive interface across common screen sizes.
- 3 Conduct a structured UI/responsive website.
- 4 Strengthen practical skills in JavaScript and Tailwind CSS.

Scope & Technologies Used

IN SCOPE
● Login / authentication screens ● Dashboard & CMS pages ● UI/responsive audit (desktop, tablet, mobile)
OUTSIDE SCOPE
● Backend logic ● Database design

HTML5 Page structure	CSS3 Styling & layout	Tailwind CSS Responsive utility-first UI
JavaScript Interactivity & validation	Git & GitHub Version control	DevTools Debugging & UI audit

System Architecture & Methodology

SYSTEM ARCHITECTURE

Navy = built during internship | Grey = owned by organization

METHODOLOGY

- 1 Requirement discussion**
Understood required pages via internship-guide discussions
- 2 Reference & planning**
Reviewed design references; planned layouts/components
- 3 Page-wise development**
Built auth, dashboard, CMS pages incrementally
- 4 Responsive styling**
Used Tailwind CSS across screen sizes
- 5 Website audit**
Reviewed org site with DevTools; prioritized issues

Expected Outcomes & Acknowledgement

EXPECTED OUTCOMES

Complete admin-portal frontend: auth, dashboard, and CMS pages.

Documented, prioritized UI/responsive audit of the website.

Portfolio-ready, industry-level frontend development project.

ACKNOWLEDGEMENT & CERTIFICATION

Certified by Infiniti Tech Solution, Noida, for completing training in Web Designing (1 July - 14 August 2026), with hands-on experience in the Admin Panel, a Landing Page, and UI/UX implementation. The intern was noted to be regular, punctual, and enthusiastic.

Sincere thanks to Mr. Durgesh Nagvanshi, Internship Guide, for his guidance throughout the admin portal development and related web design tasks, and to the School of Computer Science and Engineering, IILM University, Greater Noida, for their continuous support.

Thank You
